tion in the Republican primary of June 6, it is one of the striking features of the campaign within the Republican party that the caudidacy of W. F. Hite, for United States senator, has not changed except to grow in strength. Mr. Hite set out with a definite announcement of principles and purposes, and he has held steadfastly to this line of action. His organization, which assumed formidable proportions carly in the fight, has held together with wonderful persistency, and wherever he has secured a foothold—and that is in every county in the state—his strength has grown steadily. His first statement to the voters carried a convincing appeal and he has mingled with them, as his campaign has progressed, he has shown himself true to the principles which were announced as the basis of his candidacy.

Which Do You Prefer?

It is important for reasons or health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Royal, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

Royal Baking Powder contains no alum nor phosphate.
